- Testing: Cypress, Jasmine
- Tools: Git, GitHub, Draw.io, WebSocket, LeafletJS, Angular CLI
- Databases: MySQL, MongoDB
- Methodologies: Scrum

Languages

- Spanish (native)
- English (intermediate - B1)

Professional Profile

Systems Engineer with 4+ years of experience as a Frontend Developer, specializing in Angular and modern web technologies. Passionate about building innovative and efficient solutions, with strong expertise in agile methodologies (Scrum), automated testing (Cypress, Jasmine), and scalable application development. I'm committed to continuous improvement, clean and maintainable code, and collaborative teamwork. Currently looking for new professional challenges where I can continue growing and contribute to high-impact tech projects.
